

Please limit the concentration of Broadcast Ownership. I have noted in the last few years, that it is more and more difficult to get a thorough understanding of the public issues, due to the consolidation of broadcast stations. Stations seem to either have no discussion of any issue that the ownership does not want aired. Or, extreme inflammatory dialog to force their opinion in news style programs that are really entertainment. ie they have no responsibility to truth as per Rush Limbaugh who states he doesn't need to tell the truth, he is an entertainment program! I find it very difficult to find reasonable discussions of today's issues.

I have seen NO discussion of this issue. I am forced to believe that is because the Seattle media WANTS to be allowed to become more concentrated.

When I have travelled to other parts of the country, there is even less openness in the media.

Please protect the Broadcast bands for the public, not the corporate profit.

Please do NOT allow FOX to take over any more of the broadcast bands.
